### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The instant claims are novel and unobvious over the prior art of record. The bis-chelating ligand of claim 1 is novel and unobvious over the prior art. Said ligand when used with a transition metal as a catalyst for the carbonylation of olefins are very selective toward the formation of the normal alkanals with minimum formation of branch alkanals. The prior art show ratios of normal to branch alkanals approximately of 1 to 15 whereas the claimed compounds show ratios of about 35-113. See Table 1 at page 28. These results are unexpected with respect to the selectivity in the carbonylation reaction of olefins, particularly the hydroformylation of olefins.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Porfirio Nazario-Gonzalez whose telephone number is 571-272-0641. The examiner can normally be reached on Mon.-Fri. (9:30 AM - 6:00 PM).
